

February 2017

**43rd International Symposium of
CIB W062 Water Supply and Drainage for Buildings
23-25 August 2017**

TVVL The Netherlands invites you to participate in the 43rd International Symposium of CIB W062 Water Supply and Drainage for Buildings.

The symposium will be held from 23-25 August, 2017 in the city of Haarlem near Amsterdam.

The symposium is open to all experts, researchers and practitioners of the regulators and industries from all over the world who are interested in the development of building water supply and drainage.

The symposium lasts 3 days.

The 43rd international Symposium of CIB W062 Water Supply and Drainage for Buildings warmly welcomes representatives from Europe, America, Africa, Asia and Oceania.

Symposium Language : The official language of the symposium is English.

Symposium objectives / Topics

The aim of the symposium is to provide a forum where participants will exchange information on:

- results of recent researches;
- industrial researches and developments;
- performances of building systems;
- models and procedures for design;
- codes of practice and standards.

Within the general area of concern – cold water, hot water, drainage and storm water, the topics in which papers are encouraged should preferably include the following:

1. Water supply including hygiene security
2. Water saving and water re-use
3. Drainage including health and hygiene aspects
4. Materials for water supply and drainage
5. Codes and standards
6. Computer modelling

Call for Papers

Authors are invited to submit an abstract (not exceeding 300 words) describing original research results, applications, or case studies for consideration and possible acceptance by the scientific committee.

Find the instructions for the abstracts [here](#).
