

August 2019

From the CIB Management New CIB Office Manager

We are pleased to announce that Debbie Gray has joined the Association for Innovation in Building and Construction as our permanent Office Manager.

Debbie has held a number of positions in which she gained experience in all aspects of office management and support of C-suite executives.

In particular, she has supported a NASDAQ-listed multinational firm, Akamai, as well as the executive suite of a number of high tech companies, including the venture capital funded companies ProntoForms and DragonWave.

Debbie will play a key role in completing the CIB's transition to our Ottawa office and in seeking efficiencies in everyday operations.
