CIB Encouraged Journal Facilities Call for Papers Special Issue Shaping Tomorrow's Facilities Management

During the International Research Conference "Shaping Tomorrow's Built Environment", held at the University of Salford, 11-12 September 2017, a number of papers were presented in sessions organized by the CIB Working Commission W70 Facilities Management and Maintenance.

Authors, not only of conference papers presented in Salford but also others, primarily those affiliated with CIB Working Commissions, are invited to develop in-depth article manuscripts for submission to this special issue. Potential topics of submitted articles include, among other:

- BIM project data transfer to FM software
- Building Information Modelling for facilities performance
- Facility management and digitalization, especially BIM
- FM performance indicators
- Planning and space management for hospitals
- Indoor environment quality and occupant productivity
- Circular economy and real estate
- Sustainable FM practices
